

## IMPORTANT NOTICE

### California Proposition 65

The revised California Proposition 65 law will go into effect on August 30, 2018. This letter is to advise you that the products that Quincy Lab sells do not meet the safe harbor levels of exposure to one or more of the listed chemicals in the California EPA Office of Environmental Health Hazard Assessment (OEHHA). As such we are required to provide a warning label on all of our products. This new label is required for all products manufactured after August 30, 2018. The warning must also be displayed on websites and catalogs to warn consumers prior to purchase.

According to Section 25600.2 of Article 6 it is the responsibility of the manufacturer (Quincy Lab) to provide the "retail seller" (RPI) with product labeling as specified in Proposition 65. Beginning August 30, all products will be labeled per these requirements.

The warning label that will be provided on all products is as follows:

**WARNING This product can expose you to chemicals including Diethylhexyl Phthalate (DEHP), which is known to the State of California to cause cancer or birth defects or other reproductive harm.**
